

COVID-19: how business travelers view the measures needed to resume safe travel

Business travelers are most **positive** about the benefits offered by effective vaccines. Other travel-enabling measures, such as pre-departure testing and digital health passes, are also rated highly. But quarantine, which may disrupt travel, has a **negative** effect on traveler confidence.

Produced by BCD Travel Research & Innovation, March 2021

Source: an online survey of 844 business travelers conducted by BCD Travel between February 17 and 26, 2021.

Find out more about these measures in our *Getting back to business travel* series reports: [The Path to Safe Travel](#) and [Digital Health Passes](#).
