

Virtual Payment Automation Plus

Let your travelers focus on their professional success, not expense details.

VPA+ offers all the benefits of Virtual Payment Automation (simplicity, security, and automation) **PLUS** hotel invoice collection, correction and digitization.

Simplify your travelers' payment and expense experience.

Now travelers can say goodbye to hotel invoice collection, hotel payment and expense reporting. Instead, they can book their trip and focus on what matters. VPA+ removes a major pain point from business travel.

Increase your travel program adoption while increasing your visibility into hotel spend.

Travelers are more likely to stay in-program when they can see clear benefits. At the same time, travel managers will enjoy an increased visibility into hotel spend thanks to the additional details captured at check-out and made available in reports.

Improve your accounting process efficiency.

Benefit from easier reconciliation, tax management and identify savings opportunities (corrected invoices and easier VAT reclaim).

Collected hotel invoices are:

Accurate

Matched to booked data

Tax-compliant

Incorrect invoices are sent to the hotel for amendment

Digitized

Access to scanned invoices and visibility into hotel folio
